## Arizona Silver Belt.

THURSDAY, - - AUG. 8, 1878.

MAIL arrives 12 M., Thursdays;  
departs 6 a. m. Friday.

### LOCAL MATTERS.

The issue of flour for one week for  
San Carlos Indians is 14,000 pounds.

The feast of San Augustin, in  
Tucson, commences on the 28th.

E. W. Haskins has located a mill  
site which is reported as the Satur-  
day mill-site.

We had a heavy and beating rain  
on Sunday afternoon and on Tues-  
day a gentle one of shorter duration.

Mrs. Zella Johnson and Dr.  
Thatcher left on Friday's coach for  
San Francisco.

Shryock & Hise have contracted  
with A. Hall to re-build on the spot  
where the crash occurred on Sunday.

Jacob Abraham and wife have ar-  
rived from Silver City and intend  
making this place their home.

Louis Rosenthal of Santa Fe left  
this place for San Carlos Indian  
Agency yesterday.

The non-arrival of the Citizen on  
time is accounted for by the fact that  
a form was "piled" in that office.

The machinery for hoisting and  
pumping was unloaded at the Han-  
nibal mine on Monday.

The company owning the Robert  
E. Lee mine contemplate an assess-  
ment of \$25,000, to be used in sink-  
ing a 400 foot shaft.

The friends of Mr. and Mrs. G.  
N. Freeman will be pleased to learn  
that their boy, who was so danger-  
ously sick, is rapidly convalescing.

Hon. King S. Woolsey was in  
town yesterday and left for McMil-  
lenville this morning. He will re-  
turn via Globe to Phoenix.

We learn from Mr. E. Cummings  
of the Hannibal Mining Company,  
that their pumping and hoisting ma-  
chinery will be in motion on Monday.

George Sheppard, we are inform-  
ed, at the solicitation of numerous  
citizens, has consented to run for as-  
sessor and collector of school tax.

John Taylor's train, belonging at  
Anton Chico, N. M., passed this  
place on the 5th on its way to Phoe-  
nix.

Mr. Lohman, who arrived here  
from Mesilla, N. M., last Thursday  
by Lacy's Express left for the Rio  
Grande Sunday morning.

Mr. A. N. Sterling has bought the  
Occident, on the Sierra Madre lode,  
from A. D. Skinner. He intends to  
develop it.

It will be interesting to those who  
say Arizona has no arable land to  
know that one ranchero, K. S. Wool-  
sey, harvested 1200 acres of wheat,  
estimated to give 1,200,000 pounds.

We are informed that flour is sell-  
ing in Phoenix, 1,000 pounds and  
upwards at \$3.30 per hundred, and  
the sack at \$3.50. Barley 2 cents  
and wheat 1 1-2 cents per pound.

Beef cattle are now being deliver-  
ed at the San Carlos agency for In-  
dian consumption. Flour was sent  
from this place yesterday. It will  
require 4,000 beaves to fill the pre-  
sent contract at San Carlos.

The stage on its way from Flor-  
ence to Tucson was halted on Friday  
by one man, mails taken and three  
passengers, J. P. Clum, a veterina-  
ry surgeon and a Chinaman, robbed.  
The aggregate sum taken was \$38.

We are in daily expectation  
of the arrival of type, paper, inks,  
etc. Money wherewith to pay is  
needed. Those knowing themselves  
indebted to the Bait will please  
make a note of it.

In Florence, Saturday night last,  
Callisher's store was entered by two  
men who took the cash box contain-  
ing about \$300 and a lot of snide  
jewelry. Suspicion rested upon  
James Traynor and Ed. Ormen who  
left town and were followed by  
Deputy Sheriff De Pray and others,  
and brought back. An examination  
was held which resulted in their dis-  
charge, when they again left for  
Tucson.

DEAR CHARLEY: Citizens of  
Globe are not sufficiently interested  
in the alarm candle, or its peculiar  
swakening qualities to render an  
agency for its sale desirable. We,  
therefore, return you the sample by  
Ed. Cummings, with many thanks  
for having constituted us your sole  
agent for its sale in this place, and  
though we have labored hard in your  
behalf, have not sold a man. Math-  
ematics have a foundation in truth.

So has the electric candle; it never  
deceives. Mathematics is the sci-  
ence of numbers, so is the electric  
candle. It marks not only the hours  
out decimals of hours. Set the can-  
dle to awaken a sleeper, no matter  
how sound, say at three-quarters af-  
ter 3 a. m., or any other hour when  
eyelids are the heaviest and closed  
by leaden sleep, and the senses have  
stolen away in dreams to childhood's  
home, when the dreamer is in the  
very act of embracing the "Girl he  
left behind him," it will cause him  
to start from his girl and his slum-  
ber at the moment of time the can-  
dle was set to arouse him. Charley  
you should be proud of having given  
to the world so useful an article as  
the electric candle. You will be  
nibbled in the temple of fame above  
Edison, for what would his telephone  
be without your candle to keep man-  
kind awake to hear what it was say-  
ing!

If you have perfected your patent  
wind digester send a gross, it may,  
perhaps find ready sale.

At a call meeting of Globe sub-  
scribers to fund for construction of  
a wagon road from this place to Mc-  
Millenville, held at Pinal Brewery,  
Aug. 2d, G. A. Swasey chairman,  
W. A. Wilson secretary, J. H. Eaton,  
Fred Medler and T. P. Kerr  
were unanimously chosen as Road  
Viewers with instructions and power  
to confer with a like number from  
McMillenville and together view out  
and determine the location and route  
of said road. The chairman was al-  
so requested to draft a petition to  
the Board of Supervisors of Pinal  
county asking an appropriation in aid  
of the work.

J. W. Haskins is pushing his mill  
and assay buildings rapidly. Thirty  
men are in his employ. The assay  
building is nearly completed and the  
rock work for foundation of mill is  
being laid. Adobes for the walls  
are on the ground and lumber is be-  
ing hauled from Bremen's mill. The  
machinery will soon be there. It is  
the intention of Mr. Haskins to blow  
the steam whistle by the first of Oc-  
tober. Mr. H. is also grading a  
road to his mines, and report says  
when finished it will be a good one.

Geo. Turner, Sr., of McMillen-  
ville was in Globe yesterday. He  
has just returned from Phoenix where  
he had gone to convey a party com-  
mitted for crime. He reports the  
weather in Maricopa intensely warm  
and the people sighing for those  
cool and refreshing zephyrs with  
which we are blessed. Politics in  
Phoenix are red-hot. Deputy Sher-  
iff Phy who was seriously hurt by  
some Mexicans is, we are glad to  
learn, recovering from his injuries.

Julius W. Van Slyck is in town on  
his way from Florence to McMillen-  
ville. H. L. Hart, Indian agent, is  
also here. M. W. Bremen and J.  
M. Ginn arrived from Silver City on  
Sunday last. Mr. Bremen is pecu-  
niarily interested here and prob-  
ably will make a prolonged stay. We  
understand he has a location on the  
Stonewall Jackson ledge near Mc-  
Millenville.

The candidates for Justices of the  
Peace, McMillenville, are W. P.  
Woods and John M. Jones, and not  
Turner and Jones. Please correct.  
Yours, JOHN M. JONES.

We were informed that Woods was  
nominated, but, before a vote was  
taken, declined, whereupon Turner  
was nominated and declared the  
choice of the convention. We are  
authorized by Mr. Turner to say he  
will not be a candidate.

Mr. Hart while here, in conversa-  
tion with a well-known gentleman,  
said he would endeavor to have a  
strip of land from the Western  
boundary of the reservation segrega-  
ted in order to accommodate the min-  
ing interest near that line.

On Sunday a new house belonging  
to Shryock & Hise fell. It was for-  
tunate it did so, for the reason that  
in another week it would have been  
occupied by Mr. Hise and wife as a  
dwelling, and the probabilities are

that one or both would have been  
killed.

Charles Mason, one of the origi-  
nal discoverers of the King mine, died  
in San Francisco, it is supposed of  
heart disease, on the 30th ult. He  
was known throughout Arizona and  
highly esteemed for his generous and  
genial qualities. He was in affluent  
circumstances.

We were shown a rich specimen of  
nearly pure silver which was estima-  
ted to weigh about seven pounds. It  
was from the Coplin mine. It was  
so nearly pure as to be judged at  
from \$25,000 to \$27,000 per ton.  
We were also shown some rich grey  
sulphurets from the Pacific mine es-  
timated at \$3,000 per ton. These  
mines are within six miles of this  
place—J. C. Coplin and B. P. Cox  
owners.

To JUDGE F. L. B. GOODWIN:

DEAR SIR:—The undersig-  
ned believing that Globe District  
should be represented in the next  
Legislature and having confidence in  
your competency and integrity, would  
respectfully request that you allow us  
to announce you as a candidate for  
the Council.

August 5th, 1878.

Messrs. G. A. Swasey, Thos. Kerr,  
Fred Medler, J. H. Eaton, W. P.  
Shryock, Jr., G. Van Wagenen,  
J. J. Vosburgh and others:

GENTLEMEN:

Your courteous com-  
munication of the 5th inst. is at  
hand. Please accept my profound  
thanks for the proffered honor.

Since it seems to be the desire of  
so large a number of the representa-  
tive citizens of our county that I  
should become a candidate for the  
Legislature I shall respectfully sub-  
mit my name to the voters of Pinal  
as a candidate for the Council. If  
elected I promise to discharge my  
duties as a legislator to the extent of  
my humble ability and do all in my  
power to further the interests of Pi-  
nal and the whole Territory.

Very Respectfully,

Your Obedient Servant.
